

Feeling Pressured? Know Your Rights!

At a time when there is an active union campaign at Highland Hospital, we appreciate that there can be pressure around the decision you have to make on election day.

Please remember, it is your decision and your decision alone to decide whether or not union representation is right for you.

Under our Harassment policy it is never ok to be harassed regarding this topic, or any other topic.

If you believe you are being harassed by others who are for or against the union, please contact your leader or Human Resources immediately to report the situation.
